MEMORANDUM FOR: Special Support Assistant  
to Deputy Director (Support)

FROM : Chief, Finance Division

SUBJECT : Class A and Class B Stations

REFERENCE : Your Memorandum dated 23 April 1957

1. Attached per your request are lists of stations and bases which have been designated as Class A and Class B for accounting purposes.

2. Only those stations or bases from which we have received monthly summary accountings have been included in these lists. We have been informed that [REDACTED] are in the process of being opened.

3. As you know, the fact that a station has been classified Class A or B for accounting purposes, does not indicate that it is charged with, or is in position to implement, the same financial procedures as other stations bearing the same classification. The obvious illustration of this fact is found in the NEA Area where a Regional Certifying Officer concept has been implemented. In such a situation, stations serviced are treated by Headquarters Finance Division as subject to Class A accountings but for treatment as Class B stations for certain financial servicing. It is, therefore, necessary to determine, on an individual case basis, the distribution to be made of book dispatches to be directed to such stations. For this reason, Finance Division, in all instances identifies the stations to which it desires book dispatches originating with it be sent. Consistent with this procedure, it is suggested that rather than utilizing lists of stations classified A or B for accounting purposes as the basis for distribution of book dispatches that such dispatches which should be distributed on the basis of the accounting and financial responsibility charged to a station be coordinated with this Division for determination as to appropriate distribution prior to release.

4. Supplemental information will be furnished in the future when any additions or deletions are made to this list.
